SERENISSIMA

CAVA

Cava by Serenissima interprets porcelain stoneware as an essential solution for contemporary design. Conceived as a system of stone-effect surfaces, the collection draws inspiration from naturally varied and visually striking stone types, combining their expressive character with the technical performance required for both indoor and outdoor flooring applications.

The colours Avorio, Tortora, Beige and Tabacco form a palette of four warm, welcoming neutrals in tune with contemporary interiors and lifestyle trends. Their refined appearance is enhanced by elegant graphics, subtle veining and tonal variations, brought to life by the new Contour Tech™ technology. The process allows the inks to penetrate and shape the surface, creating subtle micro-reliefs that can be felt to the touch. Perfectly synchronised with the graphic design, this delicate three-dimensional effect gives the surface an exceptionally natural and authentic appearance, further enhanced by the way it interacts with light.

The Cava range brings together a versatile selection of finishes and thicknesses designed to meet the requirements of both residential and hospitality settings. Among the surface finishes, Natural R10 and Silk are intended for indoor applications and are complemented by the Scaglie structure, which adds a distinctive three-dimensional character to every colour in the collection, as well as by the Tessera Mosaic.

Available on request in all formats, Spaccatella is a special edge treatment that gives the tile a deliberately irregular profile, enhancing its material character and evoking the authentic appeal of traditional craftsmanship. This distinctive detail brings a natural, timeless elegance to architectural spaces.

The R11 finish, specifically developed for outdoor applications and produced using the exclusive Mellow Touch™ technology, is available in two formats — 100x100 and 60x120 cm — and in 8.5 mm, 9.5 mm and 20 mm thicknesses, further extending the collection's range of applications. This innovative outdoor finish combines an exceptionally pleasant tactile feel with high slip-resistance performance.

The collection is completed by an extensive range of special pieces, many of which are also available in 20 mm thickness.

Technical Data:

Technology:	Glazed fine porcelain stoneware
Finishes and Sizes:	Natural R10, Silk – 30x30, 30x60, 60x60, 60x120, 120x120 cm – 9.5 mm thickness Natural R10, Silk – 100x100 cm – 8.5 mm thickness R11 – 60x120 cm – 9.5 and 20 mm thickness R11 – 100x100 cm – 8.5 and 20 mm thickness Spaccatella – on request, all formats
Colours:	Avorio, Tortora, Beige, Tabacco
Décors:	Scaglie 60x120 cm, Tessera Mosaic 30x30 cm
Applications:	Residential settings
Production:	Made in Italy
