EXPRESS YOURSELF

GRANDE IN FALDA

The classic and refined elegance of three fine Italian travertines comes to life in the new **GRANDE IN FALDA** collection by Serenissima, available in large-size porcelain stoneware tiles. A poetic rendering of the typical shades and fascinating cloudy textures of marble blocks cut into the layer, which, thanks to the warm and enveloping colours selected by Serenissima, translates into surfaces of timeless beauty for projects in line with the latest trends in contemporary design.

Perlato di Sicilia is the shade that is named after the Sicilian marble by the same name. It is characterized by a light ivory colour, with arabesque nuances in shades of brown, on which lighter, nearly white spots stand out, reminiscent of the mother-of-pearl colours found inside shells.

The inspiration behind Travertino Navona comes from the Roman quarries, a classic with timeless charm that encapsulates the history of Italian architecture in its texture. The characteristic ivory white shade fits with nonchalant elegance into any project, be it classic or modern.

The Marmo Primavera colour translates the characteristic Lombard marble, also known as Breccia Primavera, into porcelain stoneware tiles. The delicate pink nuance of the surface, combined with the characteristic cloudy texture, makes this offering by Serenissima truly unique and fine.

GRANDE IN FALDA clothes the surfaces of residential and commercial interiors and exteriors, offering timeless atmospheres, suitable for building renovations and a source of inspiration also in the pairing of colours and materials typical of contemporary design. Continuity between indoor and outdoor areas is guaranteed thanks to sizes featuring the R11 surface, also with a thickness of 20 mm, for the most demanding of design challenges.

Technology:	Glazed porcelain stoneware
Colours:	Travertino Navona, Perlato di Sicilia, Marmo Primavera
Sizes:	cm 120x120, 100x100, 60x120, mosaic 5x5
	R11: cm 100x100, 60x120
	R11 20mm: cm 60x120
Use:	Residential and commercial indoor and outdoor construction
Production:	Made in Italy
