

EVOCA

Materials used in architecture along with traditional ones, industrial manufacturing quality and refined craftsmanship all come together in the **Evoca** range of surfaces – the new project designed by **Serenissima** to broaden the language of design for ceramics. **Evoca** expresses an unusual aesthetic quality, balanced between past and present and therefore ideal for furnishing interiors and exteriors of modern surroundings and making simple, refurbished spaces more comfortable.

The versatility of the **Evoca** surfaces is further enhanced with the five exclusive colours selected for their elegance, warmth and refinement: *Ambra* and *Terra* are the shades that interpret the desire for comfort and a homely welcome, *Avorio* and *Cenere* are the colours with an intense fascination, capable of combining with even the most daring furnishing choices, and finally there's the darkest one, *Grafite*, the most striking and restrained of them all.

Evoca comes in a variety of modular sizes, allowing designers to work out different laying solutions and experiment with colour combinations, giving free rein to their creativity. The range also includes an R11 grip surface, specifically for outdoor projects, thus widening **Evoca's** field of application and guaranteeing perfect continuity between interior and exterior. **Evoca** with **19 mm** thickness, in the new 60x120 cm size, is the solution that exploits Serenissima's cutting-edge ceramic technology for extreme applications, such as the creation of areas suitable for vehicle access, walkways, and sites with facilities in outside areas, which will always be used with maximum safety thanks to the R11 A+B+C grip surface.

Production type:

Fine glazed porcelain stoneware

Colours:

Ambra | Terra | Avorio | Cenere | Grafite |

Sizes and surface thickness 8,5 mm:

cm 100X100 | 50X100 rett

Sizes and surface thickness 8,5 mm – R11:

cm 100X100 rett

Sizes and surface thickness 10 mm:

cm 80x80 | 60x120 | 60x60 | 30x60 rett

Sizes and surface thickness 10 mm – R11:

cm 80x80 | 60x60 rectified

Sizes and surface thickness 19 mm – R11

cm 60x120 rectified

Use:

Residential | Light commercial | Interior and exterior floors and walls

Manufacture:

Made in Italy
