

## MAGISTRA

Classy and highly-prized, antique-finished marble with its precious features has been reinterpreted by Serenissima to fit in with contemporary architecture. History has been written in marble: it has emphasized the classical beauty of Greece, the magnificence of ancient Rome and has come down throughout the ages, giving an everlasting quality to monuments and sculptures right down to our modern times where it explains to us who we are. **MAGISTRA** is a porcelain tile collection offering a reworking of the material providing its inspiration, using cutting-edge technologies and making it ideal for today's design projects.

**MAGISTRA** proposes an interesting choice of sizes and surface finishes, including the **LUX version**, that enhance the effects of wear and tear and of time on each individual piece. It comes in five colours: the sophisticated black of **Marquinia**, the feminine elegance of **Fior di bosco**, the vintage colour-tone of **Cappuccino**, the unusual shade of **Paonazzetto** and the much sought-after onyx beige of **Corinthian**.

*Production type:*

Fine porcelain stoneware

*Colours:*
