

PROMENADE

The charm of history and the beauty of contemporary life blend in the ceramic surfaces of **Promenade**, the new collection by Serenissima that explores the aesthetics and colours of a natural stone typical of southern France. The evocative elegance of **Promenade** is available in the natural finish, for indoor use, and enhanced by the R11 grip finish, designed for outdoor flooring, to accommodate different architectural needs and ensure visual continuity between the indoor and outdoor areas.

Promenade's five modern neutral shades are particularly versatile elements in new projects and, thanks to the advantages of fine porcelain stoneware, are ideal to make renovated spaces more functional. The many modular sizes proposed by Serenissima, which emphasize the eclectic style of the collection, range from the large 120x120 cm to the 30x60 cm, and may be combined to create elegant installation solutions and personalize the style of each room.

The possibilities for outdoor use of **Promenade** are further expanded by the 19 mm thick version, available in the 60x120 and 60x60 cm sizes and R11 finish, which allows for dry-laying on grass, gravel and sand, installation on traditional screed and creating floating paving set on underlayment.
