

CONCRETA

Solid and compact, Concreta is the new porcelain stoneware collection by Serenissima, a name that reflects its aesthetics and technical features. Elegance combines with functionality, stylistic research intertwines with minimalist patterns for versatile surfaces that shape contemporary spaces.

The materiality of Concreta, inspired by concrete, reveals the evolution of ceramic towards new stylistic expressions, in line with current design needs. The surface features an essential, modern yet classic texture, ideal for indoor and outdoor use in residential, public and commercial spaces. The colour palette - composed of Avorio, Tortora, Titanio and Antracite - enhances the linear elegance of the project and lends itself to eclectic combinations, with bright colours and trendy material effects.

Freedom in designing characterizes a collection that offers cutting-edge porcelain stoneware in four sizes, starting with the large 120x120 cm, and two finishes, natural and R11 grip for outdoor use. Proposals featuring a thickness of 19 mm enhance the product range and expand the technical solutions, enabling installations such as dry-laid, traditional screed for vehicle-resilient areas and floating floors, as well as colour-coordinated pool edges thanks to specific trim pieces.

Production type: Full-body glazed porcelain stoneware
