

## ECLETTICA

Serenissima porcelain stoneware meets the world of mineral suggestions in the new Eclettica collection, a minimalist and rigorous stone look for cutting-edge contemporary design. Eclettica extends the material sensations of ceramic through four surface finishes, which bestow character and personality, thus enhancing the aesthetics of a stone with a compact and versatile texture.

Perfectly suited to covering floors and walls, both indoors and outdoors, the collection offers a palette of five elegant neutral tones, designed to clothe sober monochromatic spaces or to be included in complex and varied mood boards, to display one's personal style. The technical performance of porcelain stoneware is conveyed through a wide range of sizes, divided into three thicknesses – 8.5, 9.5 and 20 mm – which make it suitable for use in any application context.

The aesthetic rigor of Eclettica opens up to the world of decoration thanks to sophisticated stylistic solutions such as the Frammenti finish, the Chevron size, the Palladiana, more traditional tesserae mosaics and a patterned surface reminiscent of ceramic wallpapers.
